### Please Note:-

Along with a price increase Karndean have also implemented a new policy regarding borders/corners and design strips.

They have detailed out in their new brochure a list of stock designs, which should be available off the shelf. These they classify as 'standard' designs. Anything that has to be 'custom made' ie not in their stock designs, incurs a £122 surcharge per order. This means that an order for non stock borders and corners would be charged at the relevant rate plus the £122 surcharge.
